

Revolutionizing Full-Arch Restoration: TRI® & InstaRisa's Seamless Digital Solution

Dr. Art Mirelez

June 26 | 6 PM Central Time

Join us and Dr. Art Mirelez as we explore the synergy between TRI® Dental Implants and InstaRisa, pioneering a new era in digital dentistry. This session delves into how our collaborative efforts redefine precision and profitability in implant procedures, delivering superior results that transform patient experiences. Witness how the fusion of 3D facial scanning and TRI®'s groundbreaking implant technology facilitates a digital workflow so seamless, it's changing lives one smile at a time.

LEARNING POINTS:

- ✘ **Understanding the Prosthetic Benefits:**
Explore the clinical advantages of eliminating MUA abutments, enhancing both procedure outcomes and patient comfort.
- ✘ **Advanced Workflow Integration:**
Learn how the integration of InstaRisa with the **matrix**® optimizes your clinical workflow, ensuring a smoother procedure.
- ✘ **Cost and Time Efficiency:**
Discover how innovations in workflow and reduction in componentry lead to significant savings in time and costs, enhancing both profitability and efficiency.
- Enhanced Aesthetics:**
- ✘ Delve into how the direct-to-implant approach improves esthetics, eliminating visible components and enhancing patient satisfaction.
- Clinical Outcomes & Patient Satisfaction:**
- ✘ See how innovative techniques impact clinical outcomes and elevate patient experiences.
- Accuracy in Implantology:**
- ✘ Gain insights into the accuracy enhancements brought by digital technologies, ensuring precise implant placement and optimal results.
- ✘ **3D Facial Scanning & Dental Avatars:** Grasp the essential role of 3D facial scanning in creating Dental Avatars. This integration with TRI's abutment-less implants fosters an unmatched, efficient, and predictable digital workflow.

ABOUT DR. ART MIRELEZ

Dr. J. Art Mirelez, Jr., a visionary in the field of implant dentistry, boasts an illustrious career marked by advanced education and a commitment to excellence. After earning his DDS from UCSF and completing a demanding residency at Fresno's University Medical Center, Dr. Mirelez has amassed over 2,000 hours of continuing education, focusing heavily on implant surgery and restoration. As a Fellow of the International Congress of Oral Implantologists and the Academy of General Dentistry, his expertise is profound and well-recognized. Co-founder and innovator behind InstaRisa Technologies, Dr. Mirelez integrates cutting-edge 3D digital imaging to revolutionize dental implants, offering solutions that are not only aesthetically superior but also significantly more accessible to patients.
